Hrvatski Telekom d.d.

**Independent limited assurance report
on the Remuneration Report for the year 2019**

Independent limited assurance report on the Remuneration Report for the year 2019

To the Management Board and Supervisory Board of Hrvatski Telekom d.d.

Subject matter

Pursuant to the provisions of Article 272r item 3 of the Companies Act and the contract concluded with Hrvatski Telekom d.d. (the "Company"), we performed a limited assurance engagement of the accompanying Remuneration report for the year ended 31 December 2019 (the "Remuneration Report") prepared by the Company's Management Board and Supervisory Board.

Reporting criteria

The applicable reporting criteria for identifying the individuals to be included in the Remuneration Report and the disclosure requirements of their remuneration are contained in the provisions of Article 272r items 1 and 2 of the Companies Act.

Management Board's and Supervisory Board's responsibilities

The Company's Management Board and the Supervisory Board are responsible for:

- preparing the Remuneration Report for the year 2019 in accordance with disclosure requirements of Article 272r items 1 and 2 of the Companies Act,
- identifying the individuals to be included in the Remuneration Report in accordance with Article 272r item 1 of the Companies Act,
- selecting and applying appropriate remuneration policies as well as making judgments and estimates that are reasonable in relation to the information disclosed in the Remuneration Report,
- measurement of remuneration for the year ended 31 December 2019 in accordance with provisions of Article 272r items 1 and 2 of the Companies Act, and
- publishing the Remuneration Report on the Company's website in accordance with provisions of Article 272r item 4.

The Company's Management Board is also responsible for maintaining an internal control system that provides limited assurance that the information described above is free from material misstatement, whether due to fraud or error.

Our responsibilities

Our responsibility is to report on examination of the Remuneration Report in accordance with the requirements of Article 272r item 3 of the Companies Act. We performed a limited assurance engagement in accordance with International Standards on Assurance Engagements 3000 (Revised) - *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*.

Our independence and quality control

We apply International Standard on Quality Control 1 and, accordingly, maintain a comprehensive quality control system, including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We have complied with the independence and other ethical requirements of the *Code of Ethics for Professional Accountants* issued by the International Federation of Accountants, based on the fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Summary of the work performed

We have performed the following procedures regarding the subject matter:

- we inquired of members of Management, Supervisory Board and other persons within the Company to gain understanding of the remuneration policies and the process applied in preparing the Remuneration Report;
- we received from the Company a list of all members of the Management and Supervisory Boards during 2019 and checked whether their remuneration is disclosed in the Remuneration Report;
- we reconciled the remuneration information presented in the Remuneration Report with the Company's accounting records (general ledger and subledgers) for the year ended 31 December 2019;
- we reviewed, on a sample basis, the relevant documentation (contracts and payments) related to the remuneration information presented in the Remuneration Report; and
- we checked whether the Remuneration Report contains all the information required by provisions of Article 272r items 1 and 2 of the Companies Act.

The nature and extent of our procedures were determined based on our risk assessment and our professional judgment in order to obtain limited assurance.

A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our limited conclusion.

Limited assurance conclusion

Based on our work performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Remuneration Report for the year ended 31 December 2019 is not prepared in accordance with the requirements specified in Article 272r items 1 and 2 of the Companies Act.

Restriction of distribution and use

This report has been prepared solely for the Management Board and Supervisory Board in accordance with the agreement between us, to assist the Company in reporting the Remuneration Report, and is intended solely for the purposes specified in Article 272r item 3 of the Companies Act. We permit this report to be disclosed in the Company's web page in accordance with Article 272r item 4 of the Companies Act.

To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company's Management Board and Supervisory Board for our work or this report, except where such terms are expressly agreed in writing.

In addition, based on the procedures performed and described above, this is a limited assurance report and it is not, nor is it intended to be, a legal opinion on the Company's compliance with Article 272r items 1 and 2 of the Companies Act.

The Company's Management Board and Supervisory Board is responsible for placing the Remuneration Report on the Company's web-site and for accuracy of such information. The scope of our performed work does not include reviewing these matters; consequently, we do not assume any responsibility for any amendments that might have been made to the Remuneration Report underlying this Independent limited assurance report or any differences between the report issued by us and the information presented on the Company's web-site.

Remuneration package components

Annual Target Salary is agreed in the individual contracts on the rights and obligations of MB Members and comprises a fixed basic annual salary and a performance-related variable component, the so-called Short-Term Incentive (STI). The ratio of the fixed basic annual salary and STI within the annual on-target earnings is 60:40 for the CEO, 70:30 for other Management Board members, as included in the employment contract.

The **fixed basic annual salary** is a (fixed) annual amount determined for the individual that differs in different positions.

Short-Term Incentive (STI) rewards the achievement of collective targets over an annual period. Collective target achievement is split between financial and non-financial targets and for the year 2019 were set, as follows:

- 1) Financial Targets (50% of total target set)
 - Revenue HT Group (weight: 40%)
 - EBITDA HT Group (weight: 40%)
 - oFCF HT Group (weight: 20%)
- 2) Strategic Targets (50% of total target set)
 - Convergence HT Group (weight: 33.33%)
 - Digitalization HT Group (weight: 66.66%)

Supervisory Board sets annual targets based on the adopted Business Plan. After the determination of the annual financial statements, the Supervisory Board performs the evaluation of targets achievement and determines the target achievements as the basis for the calculation of pay-outs.

Additionally, to acknowledge extraordinary individual performance a **Spot Bonus** can be granted as a one-time payment within one calendar year. There were no Spot Bonus payments implemented in the year 2019.

Remuneration system also encompasses long-term remuneration elements, **Long-Term Incentive (LTI)**, which can be awarded on top of the target salary, **Share Matching Plan (SMP)** as a voluntary long term remuneration instrument, and **Repeated Performance Incentive (RPI)**. The aim of these programs is to enhance willingness to take on entrepreneurial responsibility and identification with the Company and thus boost the Company's value in the medium to long-term.

The **Long-Term Incentive (LTI)** is a cash-based four-year program that is linked to the performance of four indicators of the Deutsche Telekom Group:

- ROCE (Return on Capital Employed),
- Adjusted EPS (Earnings per Share),
- Customer satisfaction and
- Employee satisfaction.

The payment is always made after the program's expiry and the evaluation of the targets' performance levels on a scale of 0-150% and the achievable amount is 30% of the annual on-target earnings.

Long-Term Incentive plans Lead to Win 2016, Lead to Win 2017, Lead to Win 2018 and Lead to Win 2019 exist at the Deutsche Telekom Group level. The plans promote the medium and long-term value enhancement of the Deutsche Telekom Group, thus aligning the interests of the management and the shareholders.

LTI 2015 ended on 31 December 2018, and the Supervisory Board determined the final target achievement of 151%.

The term of LTI 2019 covers the period from 1 January 2019 to 31 December 2022.

Share Matching Plan (SMP) is a long-term remuneration instrument which is mandatory to the Company's President of the Management Board and voluntary for Management Board members. Plan participants purchase Deutsche Telekom AG shares ("voluntary, private personal investment") based on an offer. The amount of the voluntary personal investment is between 10% ("minimum amount") and one half ("maximum amount") of the gross payment amount of the 2018 Short-Term Incentive (STI) paid out in 2019 and is determined by the plan participant when accepting the Deutsche Telekom offer. The term of the 2019 SMP covers the period from 1 July 2019 to 30 June 2023. Participants must hold their shares for at least 4 years ("lock-up period") and may freely use them upon the expiry of the freeze. At the end of the plan term, the plan participant shall be granted Deutsche Telekom shares free of charge. The proportion of the number of additional shares thus granted depends on the individual's management level: CEO: 1:1, other Management Board members: 1:2.

Repeated Performance Incentive (RPI) is a four-year program. It covers the period of 1 January 2018 (beginning of the plan) to 31 December 2021 (end of the plan). Target achievement of a minimum two consecutive years is always the decisive factor for the eligibility for a bonus payment. The first year is only considered as the year of eligibility of the Company and the bonus will be paid out from the second year onwards. The key performance indicator is attached to the unadjusted EBITDA. No payment of RPI was made in 2019.

Supervisory Board determines the detailed rules, the amount that may be utilized for the specific incentive and the actual performance levels at the end of the programs' duration.

The rules of participation in the programs (LTI, SMP, RPI) and plans initiation have to be adopted by Supervisory Board every year.

Individual MB member's contract can include **fringe benefits**: assignment of the company car, accommodation cost, education/trainings, pension fund, and scholarship for children, life and accident insurance, other non-cash benefits and services, depending on individual circumstances of the person in question.

The remuneration structure for the Management Board members is based on the Guiding Principles and the Leadership Principles. It is designed to support, reward and acknowledge the executives' achievements and their effort for the success of Company. It ensures that Management Board remuneration is oriented toward a sustained development of the Company.

The relative value of the remuneration components is determined on the basis of benchmark and market conditions in order to provide a competitive and motivational remuneration structure.

All executive positions are assessed on the basis of standard criteria (Hay Group grading system) and assigned to management groups MG 1 to MG 3. The assessment results clearly reflect the contribution made by each position toward increasing the Company's value and success.

The following tables show an average remuneration paid to all employees in Gross 1 amount, which includes a fixed and variable part of the salary, other remuneration components, remuneration in kind and other material rights arising from employment status, divided by the average number of employees equivalent to full time employment (FTE). The same methodology is applied to calculate the average remuneration paid to Management Board members and Supervisory Board members.

Attachment 2

Pursuant to Article 247a and in connection with Article 276a, paragraph 1 of the Companies Act, the Supervisory Board of Hrvatski Telekom d.d. (hereinafter: the Company or HT) proposes to the General Assembly to be held in 2020 the approval of the following

Remuneration Policy for Members of the Management Board**Introduction**

As HT is part of the Deutsche Telekom Group (hereinafter "the Group") and included in the consolidated financial statements of Deutsche Telekom through full consolidation, the Supervisory Board of HT adopted the Group Policy – Performance Management for Executives in Groups MG1 to MG3 and the Global Compensation Guideline for Executives in Management Groups MG1 to MG3, for application to members of the Management Board of HT.

The remuneration structure for members of the Management Board (managers) and the performance management model were determined on the basis of the Guiding Principles and the Management Principles. Their purpose is to support, reward and recognize the achievements of managers and their contribution to the success of the Company and the Group. This Remuneration Policy for Members of the Management Board is based on the principle of attracting, motivating and retaining highly qualified professionals with the aim of promoting good and efficient management. The Policy aims to ensure a balanced, sustainable and transparent remuneration of members of the Management Board, which strongly encourages a culture of performance, long-term strategy of the Company, increases the readiness to take entrepreneurial responsibility and identification with the Company and thus increases the Company's value in the medium and long term. This leads to a greater balance of management and stakeholders interest.

In order to implement these policies, a standardized system of job evaluation at the global level has been implemented within the Group. The system is based on a standardized procedure that is established at the international level (currently it is the Hay Group classification system).

Job evaluation provides an objective and transparent basis for determining the remuneration elements for executives.

All managerial functions are evaluated on the basis of standard criteria and are assigned to management groups MG1 to MG3. Factors of a personal nature have no effect on classification.

The result obtained on the basis of evaluation criteria must clearly reflect the contribution of each function to increasing the value and success of the Company and enable internal and external comparisons of managerial positions.

Elements of remuneration

Members of the Management Board (managers) receive an annual target salary and additional benefits in the form of long-term remuneration elements (Long-Term Incentive, Share Allocation Plan) and additional benefits and spot bonuses.

Annual target salary

The annual target salary is agreed in individual employment contracts. It consists of a fixed basic annual salary and a performance-dependent variable component (Short-Term Incentive - STI).

The annual target salary is reviewed as part of a procedure that is repeated every year, provided that funds are approved for this purpose.

Short-term Incentive (STI)

In addition to a fixed base annual salary, the annual target salary also includes a variable performance-dependent component, short-term incentive (STI). The share of STI in the annual target salary depends on the management group to which the position of a member of the Management Board belongs.

STI rewards the achievement of collective targets over a period of one year.

Collective targets are divided into financial and non-financial targets.

The Supervisory Board sets annual targets based on the adopted Business Plan. After determining the annual financial statements, the Supervisory Board evaluates the achieved targets and determines the target achievements as a basis for calculating the payment.

Spot Bonus

To recognize outstanding personal performance and personal achievements, it is possible to award a Spot Bonus (a bonus that is awarded immediately upon achievement) as a one-time payment. Even in the case of re-payment based on a Spot Bonus as a voluntary benefit provided by the employer, the right to any future award is not exercised. The decision is made by the Supervisory Board.

Long-term Incentive (LTI)

Long-term Incentive (LTI) is a long-term component that can be awarded in addition to the targeted salary. It is a voluntary element of remuneration aimed at the long-term success of the Group and at increasing the value of the Company. Even in the case of re-issuance under the LTI as a voluntary benefit provided by the employer, the right to any future assignment is not exercised.

The decision to issue an LTI in a certain year is exclusively within the competence of the competent body of the Deutsche Telekom Group and the Supervisory Board of the Company. This also applies to individual eligibility criteria for granting incentives.

The details are governed by the general terms and conditions of the relevant plan.

The Long-Term Incentive (LTI) is a four-year cash program linked to the performance of four Deutsche Telekom indicators:

- a) ROCE (return on capital)
- b) adjusted EPS (earnings per share)
- c) Customer satisfaction
- d) Employee satisfaction

Payment is always made after the expiration of the program and the assessment of the level of success of the goals on a scale of 0 - 150%, and the achievable amount is 30% of the annual target salary.

Incentive plan for repetitive exceptional performance (Repeated Performance Incentive – RPI)

The purpose of the incentive for repeated exceptional performance is to provide an incentive for outstanding collective performance, which is measured by exceeding a defined key indicator (KPI), which is included in the annual collective targets. RPI is a four-year program. If the objectives defined by the rules are achieved in two consecutive years, the first year is considered only the year of acquisition. The achievement of the key performance indicator defined for the program should be assessed in the context of the financial planning process. A key performance indicator is attached to unadjusted EBITDA.

In addition to the management group, the condition for participation in the Plan is defined by the level of management. The level of management of the manager on January 1 of the year in question, no later than July 1 (in case the manager exercises the right to participate in the first half of the year) is mandatory for participation. The amount of the bonus depends on the level of management, the achievement of the Company's goals and the number of consecutive years of achieving performance above expectations.

Share Matching Plan (SMP)

Share Matching Plan is a long-term voluntary remuneration instrument on the basis of which the managers of Deutsche Telekom (DT) and participating companies within Deutsche Telekom Group enter into the ownership structure and which enables them to benefit from the success of the share.

The obligatory precondition for participation in the SMP is that the executive invests in the DT's share indicated in a certain plan ("personal private investment"). Plan participants purchase DT shares based on an offer to eligible executives for the participation in the respective SMP. After a certain period of prohibition of trading in shares, the manager is awarded bonus shares. The number of bonus shares is proportional to the number of shares purchased by the manager.

The decision on the issuance of SMP in a certain year and on individual eligibility criteria for the allocation of treasury shares is the responsibility of the competent body of the Deutsche Telekom Group and the Supervisory Board of the Company.

The details are governed by the general terms and conditions of the relevant plan.

Share Matching Plan (SMP) as an instrument of long-term remuneration is mandatory for the President of the Management Board and voluntary for the members of the Management Board.

Fringe benefits

In addition to the above components, remuneration may include other additional benefits. Additional benefits are non-monetary benefits and services provided by the company and benefits in kind, e.g. benefits after work in the Company, mobility services (e.g. official vehicle), education, etc.). They may be granted in the form of voluntary or compulsory benefits provided by the employer.

Individual employment contracts

The contract with a member of the Management Board is concluded for the period of his/her appointment, which can be from three (3) years to five (5) years. It sets out the rights and obligations of a member of the Management Board, including the provisions on remuneration,

and the obligations based on his / her powers in the Management Board.

The contract may be terminated in accordance with legal provisions. The obligation to pay severance pay arises in the event of termination of the contract during its validity by the employer, unless the contract is terminated for reasons conditioned by the unlawful conduct of a member of the Management Board. The severance pay is limited to the amount of twelve (12) average monthly gross salaries paid to the member of the Management Board, i.e. to the amount of the annual target salary.

The annual target salary, variable components related to work and other elements of remuneration and other non-monetary remuneration and services are determined by an individual contract for each member of the Management Board approved by the Supervisory Board at the proposal of the Compensation and Nomination Committee.

The annual target salary is determined in individual contracts on the rights and obligations of members of the Management Board and contains a fixed basic annual salary and a variable related to performance, the so-called short-term incentive (STI).

- a) The ratio of fixed basic annual salary and short-term incentive (STI) within one annual target salary is 60:40 for the President of the Management Board.
- b) For other members of the Management Board, the ratio of fixed basic annual salary and short-term incentive (STI) within one annual target salary is 70:30, as included in the employment contract.

An individual contract of a member of the Management Board may include additional benefits: official car allocation, accommodation, education or training costs, payment into a pension fund, children's tuition, life and accident insurance, relocation costs, other non-monetary benefits and services, depending on the member's individual situation administration.

In the event of changes in circumstances and the situation in the Company that would significantly affect the ability to meet mutually agreed rights and obligations, the Supervisory Board has the right to adjust the agreed terms and parameters of remuneration to take into account the effects of changed circumstances.

In order to protect the legitimate interests of the Company, the contractual provisions include clauses to avoid conflicts of interest, prohibition of competition, protection of business secrets of the Company, protection of data secrecy and telecommunications secrecy and protection of personal data in accordance with applicable regulations.

The Supervisory Board, with the support of the Compensation and Nomination Committee, monitors the implementation of admission policies and individual contracts on an annual basis.

The Supervisory Board reserves the right to change these Policies in the event of changes in market circumstances and in such a case will submit to the Assembly for approval a proposal for changes with an explanation to the General Assembly in accordance with applicable regulations.
